Find a blueprint you like. Keep in mind however, that a blue blueprint requires 3 of the same item in the lower tier. Tier's work by colors.

Tiers (weakest to strongest):

Grey

Grey items can be purchased from Gegin. These items do nothing, but are required for a green item.

Blue

Orange

You've found a green blueprint you like. Now what? With the blueprint highlighted, Hold space and press W(up) to take the blueprint. In the same way, you can purchase the grey items. Make sure your inventory has room. Check out what items the blueprint requires, and how many tokens it takes to make. Green items generally take about 1,600 tokens to create + The cost of the 3 grey items. After acquiring all the materials you need, the tokens required, and the 3 lower tier items, open up your inventory and highlight the blueprint you want to craft.

Now hold space on the blueprint. If you have all the required materials, there should be a 4th choice, rather than only 3. The icon is in the shape of a hammer. Press W(up) and release the keys to start crafting. Now all you have to do is navigate through your inventory with WASD and hit space on each item needed to craft (including the lower tier items). After doing so properly, a window should appear, asking if you're sure you want to craft the item. Hit space on YES. Congrats. You just created an item!
